

Coal Hill Ark.

April 3 1885

W. H. Armstrong

Danville Ky.

Dear Bro.

Though I think I have written several letters to you and to Kate without a reply I will venture one more and see if it will meet with the same reception and if it does I will desist for a while and allow you time to prepare for and write a few letters to your illustrious Kinsmen.

I cannot think of any thing that will interest you to any considerable extent but am resolved to write any way.

The low business is rather well pushed now at our place but a case comes on now and then and I am sure to have a finger in the pie.

I think my business will be better this year than it was the last one - but I cannot complain much as it was last year for I came out considerably ahead for I had nothing when I commenced and now I am possessed of a few chattels - Juds health is better

now than it has been since we started -
Arkansas seems to agree very well with us
both as far as health is concerned -
How are you getting on in the world -
Does the Dream goddess smile on you or
does she frown -

Give me lines from you in the near
future -

Yours, &c.

J. O. Buster

Love to Kate & the
children, Give Kate 25
Mile -
